- DES Virtual - Expansion of Community Partner Communication
 - The Director’s Office of Community Engagement (OCE) at the Arizona Department of Economic Security (DES) continues to successfully engage with our community partners throughout our programmatic divisions. In continuing this effort, this event will provide the most recent updates from DES' Senior Leadership about the success of the Virtual Office model across the agency. It will also provide an opportunity to bring information to our statewide Community Partners regarding DES' efforts to serve Arizonans in a Virtual Environment, how it is tracking the staff productivity, and the importance of this model. During this virtual session, our Director will be sharing his vision of consistent dialogue and a call to action.
